

## Dual vocational training practices in the corporation of Ercros obtain the certificate of excellence

Dual vocational training students carrying out their internships at the customer service department

The dual vocational training internships carried out at the Ercros Corporation have obtained the seal of accreditation of excellence awarded by the certification company Applus. The practical training carried out at Ercros is also recognized by the Department of Education of the Generalitat de Catalunya.

The Ercros Corporation currently hosts seven interns, four of whom are studying international trade at the Institut Lluïsa Cura in Barcelona, in the form of Dual Vocational Training and are doing their internships in the customer service department.

This type of teaching, which is increasingly present in companies, attaches special importance to the practical training of students. Ercros students are integrated into the work team of the corresponding departments for nine months, so that, once the term is over, they have a global knowledge of the management of international trade from the point of view of a company.
